LinkedIn: <https://tinyurl.com/y496xygc> | GitHub: <https://github.com/Chandler8> | Portfolio: <https://chandler8.github.io/>

Full Stack Web Developer leveraging an international business and economics background to build more well rounded and dynamic websites. Currently pursuing a certificate in full stack web development from Georgia Tech, with newly developed skills in JavaScript, CSS, HTML, and responsive web design. Seeking full time employment in the Atlanta Metropolitan area.

## TECHNICAL SKILLS

- JavaScript (Node, Express, JQuery, JS Libraries, React)
- HTML5, CSS3, JSON, MySQL, Handlebars
- Full Microsoft Office Studio

## PROJECTS

### Space Voyager

- <https://tinyurl.com/yyumaaq5>
- An interactive and educational web application allowing users to explore various feature pages containing information about outer space and the solar system. Planetary information and real time tracking of the ISS are some highlights.
- Project manager and main contributor, group contributions can easily be viewed here; <https://tinyurl.com/yyleuoew>

### Technologies Used

- Front end made use of Handlebars, Bootstrap, Particles.js, Typed.js, Leaflet.js, Plotly.js, Moment.js, HTML, and CSS.
- Back end used 4 different API's including; NASA, APOTD, Open Solar System, and International Space Station.
- Back end also used JS, Express, NODE, GET/POST routes, JSON, JQuery, MySQL, Sequelize, deployed to Heroku.

### Musical Mood Generator

- <https://tinyurl.com/yyalpq2r>
- A responsive web application that allows users to generate a music playlist and GIF that corresponds to their mood.
- This app incorporates voice recognition, face ID, and other popular development API's.
- Tasked with building the front end including the UI and features, also worked on back end API integration.

### Technologies Used

- Front end made use of Foundation, an open source HTML and CSS layout editor similar to Bootstrap.
- Back end used 4 different API's including; Spotify, GIPHY, Face ID, and Voice recognition.
- Back end also used JavaScript, JQuery, JSON, Moment.js, and Node.

## WORK EXPERIENCE

### Windmüller Incorporated | Atlanta, GA

#### *Accounts Manager/International Exports* | June 2019 – October 2019

- Worked under the Vice President of the US subsidiary
- Managed multiple customers accounts ordering upwards of 6 million in goods yearly
- Worked daily with colleagues in Germany to successfully execute exportation of materials globally

## EDUCATION

### Certificate in Coding - Professional Education Program, Georgia Institute of Technology, Atlanta, GA

- Six-month immersive coding bootcamp covering MERN full-stack development.
- Used hosting platforms such as GitLab, GitHub, and Heroku to pull and push work as well as display applications.
- Covered both client-side and server-side JavaScript such as jQuery, Moment, Express and Node.

### Bachelor of Arts in German International Trade, Auburn University, Auburn, AL

- Completed 4 year degree with heavy emphasis on business and economics
